

RFP Software (continued)

RFP Software Definition

Request for proposal (RFP) software, sometimes referred to as request for quotation (RFQ) software, helps companies create and manage RFP documents, as well as the processes used for vendors to respond to proposals or questionnaires outlining their products or services, pricing, and other relevant information. Companies use RFP software to streamline the creation of RFP documents, track submissions, and analyze the efficiency of their RFP activities. This type of software is used by buyers or procurement professionals to invite bidders to participate in RFPs and compare them to determine the best proposal. In addition, vendors, as well as sales and marketing teams, use this type of strategic response management software to submit RFP responses, track the results of their submissions, collaborate with other stakeholders, and maintain a content library.

RFP software usually includes features for proposal management and integrates with other products such as [purchasing software](#), [strategic sourcing software](#), and [proposal software](#).

To qualify for inclusion in the Request for Proposal (RFP) category, a product must:

- ▶ Provide standard templates to create RFP documents
- ▶ Generate quotes and proposals based on RFP documents
- ▶ Provide a repository of documents and templates which can be used to quickly generate request for proposals
- ▶ Integrate with solutions like CRM and CPQ to pull product and customer data
- ▶ Offer functionality to quickly and efficiently create, share, and send request for proposals, allow edits and feedback during the proposal process, and track changes made
- ▶ Include analytics to evaluate the efficiency of the proposal process
- ▶ Compare RFP responses based on custom selection criteria
- ▶ Maintain a history and audit trail of submissions, responses, and supplier details, which can be used to create new RFP documents

Small-Business RFP Grid® Scoring Description

Products shown on the Small-Business Grid® for RFP have received a minimum of 10 reviews/ratings in data gathered by November 19, 2024. Products are ranked by customer satisfaction (based on user reviews) and market presence (based on market share, seller size, and social impact) and placed into four categories on the Grid®:

- ▶ Products in the Leader quadrant are rated highly by G2 users and have substantial Market Presence scores. Leaders include: [Responsive, formerly RFPIO](#) and [Loopio](#)
- ▶ High Performing products have high customer Satisfaction scores and low Market Presence compared to the rest of the category. High Performers include: [Precoro](#)
- ▶ Contender products have relatively low customer Satisfaction scores and high Market Presence compared to the rest of the category. While they may have positive reviews, they do not have enough reviews to validate those ratings. Contenders include: [Upland Qvidian](#)
- ▶ Niche products have relatively low Satisfaction scores and low Market Presence compared to the rest of the category. While they may have positive reviews, they do not have enough reviews to validate those ratings. Niche products include: [RocketDocs](#) and [QorusDocs](#)

Grid® Scores for Small-Business RFP Software

The table below shows the Satisfaction and Market Presence scores that determine product placement on the Small-Business Grid®. To learn more about each of the products, please see the profile section.

Leaders

	# of Reviews	Satisfaction	Market Presence	G2 Score
Responsive, formerly RFPiO	125	87	90	88
Loopio	77	74	82	78

High Performers

Precoro	17	55	23	39
-------------------------	----	----	----	----

Contenders

Upland Qvidian	10	49	84	66
--------------------------------	----	----	----	----

Niche

RocketDocs	17	23	8	16
QorusDocs	16	13	8	11

* Products are ordered by G2 Score. Satisfaction score is used as a tiebreaker if two products have the same G2 Score.

Grid® Methodology

Grid® Rating Methodology

The Grid® represents the democratic voice of real software users, rather than the subjective opinion of one analyst. G2 rates products from the RFP category algorithmically based on data sourced from product reviews shared by G2 users and data aggregated from online sources and social networks.

Technology buyers can use the Grid® to help them quickly select the best products for their businesses and to find peers with similar experiences. For sellers, media, investors, and analysts, the Grid® provides benchmarks for product comparison and market trend analysis.

Segmented Grid® Scoring Methodology

When viewing a Grid® by segment size, the same Grid® scoring methodology applies. However, the review data used is only from reviewers who are employed by a company within a particular company segment.

G2 uses the following definitions for company segments:

- ▶ Small-Business Review: A review from someone who works at a company with 50 or fewer employees
- ▶ Mid-Market Review: A review from someone who works at a company with 51-1,000 employees
- ▶ Enterprise Review: A review from someone who works at a company with 1,001+ employees

Grid® Scoring Methodology

The Grid® Report for RFP | Winter 2025 is based on reviews collected through November 19, 2024. We apply unique algorithms to this data to calculate Satisfaction (v4.0) and Market Presence (v7.0) scores for the Winter 2025 report quarter. To view the RFP Grid® with the most recent data, please visit the [RFP](#) page. For more details on Grid® Scoring, please view the [G2 Scoring Methodology here](#).

Grid® Categorization Methodology

Making G2 research relevant and easy for people to use as they evaluate and select business software products is one of our most important goals. In support of that goal, organizing products and software companies in a well-defined structure that makes capturing, evaluating, and displaying reviews and other research in an orderly manner is a critical part of the research process.

To manage the process of categorizing the software products and the related reviews in the G2 community, G2 follows a publicly available [categorization methodology](#). All products appearing on the Grid® have passed through G2's categorization methodology and meet G2's category standards.

Many terms that appear regularly across G2 and are used to aid in product categorization warrant a definition to facilitate buyer understanding. These terms may be included within reviews from the G2 community or in executive summaries for products included on the Grid®. A [list of standard definitions](#) is available to G2 users to eliminate confusion and ease the buying process.

Grid® Methodology (continued)

Rating Changes and Dynamics

The ratings in this report are based on a snapshot of the user reviews and third-party data collected by G2 up through November 19, 2024. The ratings may change as the products are further developed, the sellers grow, and as additional opinions are shared by users. G2 updates the ratings on its website in real time as additional data is received, and this report will be updated as significant data is received. By improving their products and support and/or by having more satisfied customer voices heard, Contenders may become Leaders and Niche sellers may become High Performers.

Trust

Keeping our ratings unbiased is our top priority. G2 follows defined community guidelines to ensure privacy, and authenticity for users and reviews. For more details, please view the [G2 Community Guidelines here](#).

Grid® Inclusion Criteria

All products in a G2 category that have at least 10 reviews from real users of the product are included on the Grid®. Inviting other users, such as colleagues and peers, to join G2 and share authentic product reviews will accelerate this process.

If a product is not yet listed on G2 and it fits the market definition above, then users are encouraged to [suggest its addition](#) to our [RFP category](#).

Product Profiles

Product profiles and detailed charts are included for products with 10 or more reviews.

Responsive, formerly RFPIO

4.5 ★★★★★ (1,086)

Responsive, formerly RFPIO has been named a Leader based on receiving a high customer Satisfaction score and having a large Market Presence. Responsive, formerly RFPIO has the largest Market Presence and received the highest Satisfaction score among products in RFP. 98% of users rated it 4 or 5 stars, 89% of users believe it is headed in the right direction, and users said they would be likely to recommend Responsive, formerly RFPIO at a rate of 90%. Responsive, formerly RFPIO is also in the Vendor Security and Privacy Assessment, Document Generation, Salesforce AppExchange Apps, Proposal, and Strategic Sourcing categories.
